The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 7-9 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Carter et al.

The handle is 20 and the connection mechanism is any of the structure best seen in Fig. 4 whereby the handle is connected to seat 15. The pivoting assembly is seen at the lower left of Fig. 4 and meets the last clause here as best described in col. 4, lines 26-54.

The claim 2 extension is seen to house slot 41. Re. Claim 3, the extension "dips down" at its leftmost end and "angles upward" above slot 41 or at it's convection to plate 19.

Re: claim 15, the range of motion of the handle 20 as viewed in Figs 2 and 3 is less than 90 degrees with the tanks and bowl 12 being 90 degrees disposed.

The claim 4 range is deemed met in that the length of slot 41 is certainly more than one inch.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3751

Claim 16 rejected under 35 U.S.C. 103(a) as being unpatentable over Carter et al as applied supra.

This range would not unobviously define over Carter et al as it would have been obvious to provide for any range deemed desirable.

Claims 5, 6, 10, 11, and 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication should be directed to Charles Phillips at telephone number (703) 308-1515.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
